GOING TO VEGAS? WE ARE!!!

Kubala-Sosna made its first public appearance at CES in 2004, making this our fourth time in Vegas!

We have supported not only CES and T.H.E. every year, but also the Montreal, CEDIA, Stereophile, and Rocky Mountain Shows.

In addition, we started something that is really gaining momentum. At the 2005 show, we had Steve Hoffman, the legendary re-mastering guru, put on a two hour presentation.

He typically talks about what he does and how he does it, while weaving thru a few stories behind some very well-known recordings. The room is packed and people stay for the duration!

Danny Kaey of Positive Feedback mentioned how powerful he thought this was in his show report on HE2006 in LA (see www.positive-feedback.com/issue25/he2006dk.htm).

This year the Lamm Wilson Room (34-309) will host not only the presentation by Steve (Wed 2-4pm), but also another by Jim Merod on Tuesday (2-4pm). So you know where Howard and Joe will be at those times!!

Jim Merod is a Jazz historian, as well as a recording engineer, and will speak about many of the issues on "making the master."

Here is where K-S will be ...
