CES & T.H.E. Show - 2007

K-S just concluded our *fourth* CES show!! We have made quite an impression in Las Vegas every year, and did yet again in 2007!

Many of the rooms we cabled were recognized for outstanding sound. An example is the BAT/Magico room shown in the picture (=>). Larry Greenhill from Sterophile said "The sonics were totally involving ..."

At T.H.E. Show, we partnered with Kharma/ MBL/ VYGER. Wayne Garcia of The Absolute Sound called the sound "sublime!"

Wes Philips/Jon Iverson of Sterophile said the Pathos/ JM Labs/ K-S room sounded "stunning."

Marc Mickelson of SoundStage! said the Lamm/ Wilson/ Metro- nome/ K-S system "made beautiful music!"

Greg Weaver of Positive Feedback said of the Grand Prix/ McCormack/ K-S room ... "I've never heard [88 Basie Street] like this— not ever! The silence between tracks and during quiet passages, the authority of the portrayal of piano attack, the unbridled

power of dynamic contrasts, the subtlety of tonal color, and the sheer verve of the system was undeniable."

Well, you get the idea! Kubala-Sosna, along with the partners we had, simply rocked Vegas!!

CONNECTING TO THE PERFORMANCE!

At CES 2005, we invited Steve Hoffman, who uses Kubala-Sosna cables exclusively, to give a talk about his work. At CES06, HE06, RMAF06 and CES07 he reprised his stellar performance. What better way to "Connect to the Performance" than by hearing wonderful stories about how some of our most loved recordings were made?

At this CES, we expanded our Music Lovers Workshops to include Jim Merod, who is a Jazz historian as well as a recording engineer and reviewer.

Danny Kaey of Positive Feedback: "Speaking of exceptional ... I ran like a mad dog to attend what is quickly becoming one of my favorite "sessions" ... which is Kuba-

la-Sosna's sponsored event where guest speakers offer an insider perspective to their art and craft. Alas, a big hand to Joe Kubala and Howard Sosna for again making special arrangements to bring us closer to "music."

Thanks to Danny for recognizing Steve and Jim for sharing their passion for music with us all!!

OUR FIRST REVIEW!!!

(www.positive-feedback.com/Issue29/kubala.htm)

Have you ever had a customer ask you if Kubala-Sosna has been reviewed? We have been asked a few times!! As you know, we tried to hold off being reviewed until our dealer network was stronger, and until customers were waiting to see our products reviewed and would notice when they were! Well, the first review has hit the presses so to speak! Emotion Interconnects are reviewed, soon to be followed by Speaker Cables and Power Cords! Fascination cables will follow shortly after that ... Lets Rock!!!
