CES AND T.H.E. SHOW - 2009

What a show!!! Our goal going into the show was to make an impact. Why? We were secretly hoping that Howard could finish work on our new flagship in time for the show, and, he did it!!

We had made arrangements to have a large suite (double the size of last year), and to fill it with world class components. So we partnered with Tenor electronics, Hansen speakers, Continuum turntable, and McIntosh digital. We were ready for *Elation!*

The sound in 31-236 was truly outstanding. We were told over and over again how stunning it was by everyone. PFO magazine

has given our room one of their coveted "Audio Oasis" awards. Michael Fremer came back to the room with a few very influential people from the music business to listen to tunes for an hour or so. The room had *it ... the magic.*

Enough about us. We were also part of other rooms that were recognized for having outstanding sound: Lamm/Wilson; Pathos; Talon/Navison; Aesthetix/Vandersteen; KR Audio/ Audio Epilog; Musical Surroundings; Continuum/Magico/Tenor; Magnepan/Bryston.

We took the opportunity to test *Elation!* in a few of these world-class systems against our own

Howard Sosna
The Man has done it again!
Pictured with his new creation.

Emotion cables. All we will say is you know how good Emotion is. We cannot wait for you to hear *Elation!* It is truly that good!

Thank you Howard!

WORLD PREMIER of *Elation!*

CONNECTING WITH THE PERFORMANCE

This year's Music Lovers Series events were the best ever! Our larger suite allowed for more comfortable seating and larger crowds. Both events lasted about 1.5 hours, and aside from a couple of comings and goings, held the crowd for the entire presentation.

Do you realize how difficult it is to give 1.5 hours to one room when you are trying to see all the display rooms at CES? It is a testament to our presenters and their wonderful stories that people stayed.

On Friday, Jim Merod captured the hearts of the attendees with some truly emotional stories of some very special and memorable recordings he has made. I am not ashamed to say that tears flowed.

On Saturday, Steve Hoffman mesmerized the crowd with some very insightful and entertaining anecdotes of some very special recordings that we have come to know and love. Please join us next year as these are events NOT to be missed! **Have a wonderful 2009!!!**
